

How professional is your project management?

Take the test

Project Planning and Goal Definition

Our projects start with clearly defined goals and measurable outcomes.

Fully applies

☐

Partially applies

☐

Does not apply

☐

There is a detailed project plan including timelines, milestones, and resource planning.

☐☐☐

Risks are identified early and actively managed.

☐☐☐

Communication and Collaboration

Regular meetings are held for alignment and status updates.

☐☐☐

All project participants know who is responsible for what.

☐☐☐

Information is shared transparently and in a timely manner.

☐☐☐

Project Controlling and Progress Monitoring

Project progress is regularly measured and documented.

☐☐☐

Deviations from the plan are identified early and addressed.

☐☐☐

There is a central tool or system for project monitoring.

☐☐☐

Quality Assurance

Defined quality standards exist for project deliverables.

☐☐☐

Results are regularly reviewed and validated.

☐☐☐

Lessons learned are documented at the end of the project.

☐☐☐

Leadership and Team Culture

Project leadership fosters ownership and motivation.

☐☐☐

Conflicts within the team are addressed openly and resolved constructively.

☐☐☐

Successes are celebrated and recognized together.

☐☐☐

Each "fully applies" answer receives one point. Add up your total:

13-15: Your project management is highly professional

9-12: You are on a good path, but there is still room for optimization

< 9: It is worth critically reviewing your processes and structures

Passion.
Transformation.
Results.
